UR NETWORK ID
Your NetID is the key to a variety of online services available to you at the University. It is intended, ultimately, to become a “single sign-on” for all central University information services and networks, eliminating many different logins and passwords necessary to do your daily work, including access to wireless Internet connections, UR ACCESS Plus!, and Blackboard.

Long Term parking is available in Zone 3 lot or Zone 2 North lot. Prices for the Zone 2 North lot are an additional price and a student needs to contact the Parking Office directly for pricing. Depending on the location of your class, you will
want to decide which lot you would like to park in. Please let the Parking Office know you were participating in the Taste of College Program and you would like parking in this lot. You will need to provide the vehicle registration paperwork and an ID.
